

AKCURB Installation Instructions

Rack Mounting Bracket for Compact Units

1. Mount the Rack Mounting Bracket with the provided 19 or 23 inch compatible flanges. The flanges can be front or mid mounted.
2. Remove the tie wrap holders from the upper right and left corners of the rear panel of the Compact Unit.
3. Slide the Compact Unit into the right or left hand side of the front of the Rack Mounting Bracket.
4. Screw the captive thumb screws on the back of the Rack Mounting Bracket into the threaded holes near the upper rear corners of the Compact Units (where the tie wrap mounts were removed)."
